In the Beginning – GOD

Prayer:

Ice Breaker: Have you ever sat out on a starry night and considered the immensity of the universe and the omnipotence, omniscience, and omnipresence of God who made it all, fills it all, and knows every detail about every corner of the universe?

Have you ever tried to contemplated how God transcends all time and space and has no beginning or end?

How does this make you feel?

Text: Revelation 14:6-7; Genesis 1:1

1. How and why does the final proclamation of the gospel on earth found in Revelation 14:6-7 point men back to Christ as Creator?

2. What does the word *beginning* mean in relationship to God? Genesis 1:1, Psalm 90:2

3. What great truth do we find in Hebrews 1:10-12 contrasting God to His creation?

4. What do John 1:1-3, Colossians 1:16, Hebrews 13:8, 1 John 1:1-3 & Revelation 1:8 teach us about Jesus Christ?

5. According to Colossians 1:17, what is the force that holds this universe together?

6. How long did it take God to create this present creation? Exodus 20:11

7. How can we be sure that each day does not represent eons of time as some have alleged from 2 Peter 3:8? What reoccurring phrase do we find in Genesis 1:5, 8, 13, 19, 23, & 31 and what does this mean?

8. Some believe that the fossil beds containing billions of dead animals came from a prehistoric earth. What truth of scripture does this contradict from Genesis 1:31, Genesis 2:16-17, Genesis 3:22-24; Romans 5:12 and 1 Corinthians 15:21-22?

Think about it this week:

If you would like to study the subject of creation versus evolution further, check out some good books and video tapes from our church library.

By faith we understand that the universe was framed by the Word of God.

Hebrews 11:3
